SOVEREIGN AI CORE

Dukes

SOVEREIGN AI ENGINE & AGENTS

The Australian-hosted large language model and agentic engine. Data stays on-shore, never used to train models.

Named in honor of Craig Dukes, founder of Gulanga.

Pathfinder

THE AI SOFTWARE FACTORY

DELIVER • GOVERN • SHIP

Pathfinder is the AI software factory - a delivery operating system that turns ideas into shipped products, fast and to a repeatable standard. Teams move from hypothesis to launch through the five-stage **HASTE** process (Hypothesise, Assess, Specify, Throughput, Evaluate), with concepts, decisions, risks, features and brand all connected in one workspace. AI agents work along side your people under set guardrails, approval workflows and budget limits, so speed never comes at the cost of quality, governance or a complete audit trail.
