

GULANGA

A GULANGA GROUP INITIATIVE · SHARED INFRASTRUCTURE FOR INDIGENOUS PROGRAMS

Constellation

Every star, connected.

1 platform
shared by many programs

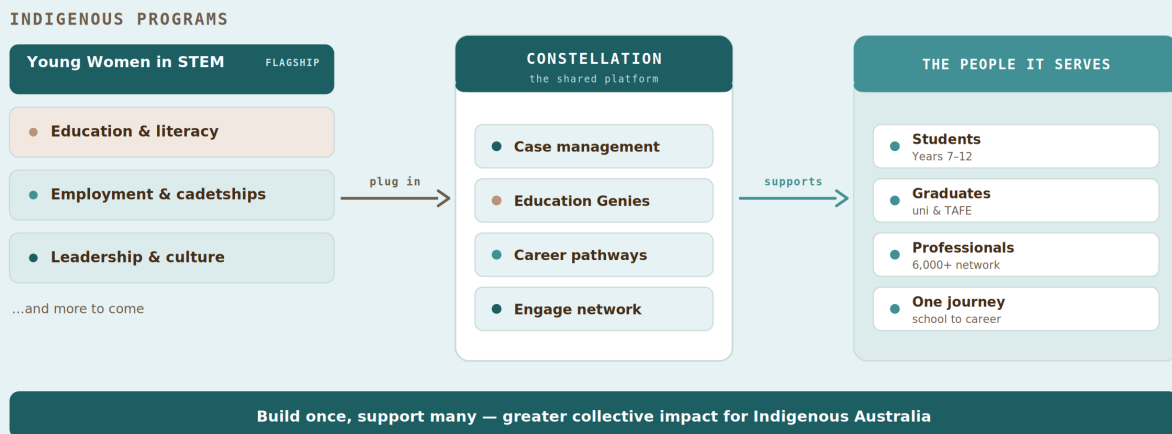

700
students · flagship STEM

6,000+
professional network

Yr 7 → career
supported the whole way

One platform, many programs — a shared foundation for Indigenous Australia. Indigenous programs plug into Constellation to teach, mentor, support and connect their people, from a Year 7 classroom to a lifelong career. The flagship is the Young Indigenous Women in STEM program — the first of many, *each program a constellation of its own.*

Technology donated by the **Gulanga Group** · flagship program: Young Indigenous Women in STEM

Programs plug into one platform; the people they serve are supported for the whole journey.

WHAT IT DELIVERS

- Manage.** One case-management core — records, scheduling, mentors & matching.
- Teach.** AI "Education Genies" — Maths, Science & English first, any curriculum next.
- Grow.** Pathways into study and employment, without stopping at a milestone.
- Connect.** An "Engage" network — a LinkedIn for Indigenous Australia.

WHY CONSTELLATION

01 Programs shouldn't build alone.

Every new program starts strong instead of starting over, with more reaching people and less lost to overheads.

02 Shared foundations go further.

Enterprise-grade capability no single program could build alone — and an improvement for one is an improvement for all.

03 Support should last a lifetime.

It grows with a person — school, study, work, network — so progress compounds instead of resetting.

Indigenous-led data

Governed under Indigenous data sovereignty.

Child safety first

Adults validated (WWVP/WWCC); safe by design.

Sovereign & secure

Onshore, PROTECTED-aligned hosting.

Built for everywhere

For regional & remote, low bandwidth.

Bring your program to Constellation.

We're bringing together the first Indigenous programs to build this with — and the partners who want to help it grow. If you run a program that deserves this infrastructure, let's talk.
