

Dukes AI

SOVEREIGN LARGE LANGUAGE MODEL & AGENTIC AI ENGINE

Sovereign Australian AI with Indigenous impact.

Dukes sits at the heart of Gulanga.AI as its **sovereign large language model and agentic AI engine**. It gives organisations secure conversational AI, enterprise knowledge retrieval and AI agents, while keeping sensitive information under Australian control. Built on the Agentaus platform through an oem partnership with Trellis Data, Dukes is rebranded, socially enhanced and delivered by Gulanga, combining secure Australian AI infrastructure with an Indigenous-led approach to technology, data sovereignty and social impact.

HOSTED IN AUSTRALIA • AUSTRALIAN LAW • NEVER USED TO TRAIN MODELS • PROTECTED-READY • SUPPLY NATION PRIME

Australian sovereignty by design

DEPLOY WHERE YOUR RISK PROFILE REQUIRES

Secure Australian cloud

Hosted in secure Australian data centres, operating under Australian law.

Your own environment

Deployed inside your organisation's infrastructure and security boundary.

Fully disconnected

Air-gapped from the internet for high-security and classified environments.

A private intelligence layer, not a public chatbot

CAPABILITIES

• Enterprise search & chat

Secure conversational access to corporate knowledge.

• AI agents within controls

Autonomous or semi-autonomous, inside defined guardrails.

• Grounded, referenced answers

Responses cite the source material they came from.

• Multilingual interaction

Engage with information in more than one language.

• Summarise & analyse

Work across large document repositories at speed.

• Auditable data governance

Data is never sold, viewed commercially or used for training.

CONNECTS TO YOUR KNOWLEDGE Word • PDF • Excel • PowerPoint • Text • CSV • APIs & external systems

AI consumption that creates Indigenous opportunity

THE DUKES DIFFERENCE

A portion of the token consumption revenue generated through Dukes is allocated by Gulanga to Indigenous programs in Australia. As customers use Dukes, part of that economic activity supports Indigenous STEM education, scholarships, mentoring, employment pathways and technology capability development.

VALUE FOR YOUR ORGANISATION

Productivity and sovereign technology capability for Government and Australian enterprise.

VALUE FOR COMMUNITY

Measurable social and economic benefit for Indigenous Australians.

Australian AI. Australian data. Indigenous impact.

Oldest continuous culture, newest contemporary technology.

Named in honour of Craig Dukes, founder of Gulanga. Powered by the Agentaus platform.
